"Graphic Nature, is a force to be reckoned with..." – *Chicago Rocker*

Graphic Nature, the new album by Brian Eaton pushes forward

After a very successful Midwest regional radio and press campaign, the new album pushes forward toward a more national campaign. The new media blitz is targeting radio stations in Los Angeles, New York, Nashville, Houston, Seattle and more.

**Graphic Nature**, featuring Seal's mega-hit "Crazy," received extensive attention regionally, and on the Internet, to warrant the expansion. One of the highlights included an on-air interview with Eaton and airplay of three tracks from the new album on 105.5FM The Kat with host Tim Lamping which aired on Thursday, April 21 (listen now @ [www.BrianEaton.com/press-radio](http://www.BrianEaton.com/press-radio)).

**Graphic Nature** also made an impression with the local and [Internet press](#), including the Chicago Rocker that stated, "Brian Eaton's new solo project, Graphic Nature, is a force to be reckoned with in the rock/pop genre..."

Recently, a huge breakthrough unfolded when rock radio stations [101.9 Fox FM](#) & [95.7FM The Panther](#) added "Crazy" into regular rotation (you can listen live online). And WRSE (Elmhurst

College Radio) confirmed they will be adding "Sobriety" and "The One Who Shines," from the new CD, to their rotation starting this week. The station has also invited Eaton to the WRSE studio for an on-air interview and live performance which will air in early June (the date & time will be posted on Brian's website & facebook page when confirmed).

"Brian Eaton is a versatile one man show. The production, vocals and guitar soloing are spectacular."
